WIX. website professional for new website • \$1,500 USD

Great work pleasure to communicate with.

[PHP](#) • [Website Design](#) • [Graphic Design](#) • [WordPress](#) • [HTML](#)

Carl G. @cgillberg •  Oxnard, United States

WhatsApp business integration

Truly knowledgeable and dedicated resource. Nice to work with him. Good thing is he understand the requirement so quick. All the best Peter, I am going to give more work to you for sure.

[Java](#) • [JavaScript](#) • [AngularJS](#)

Project for Peter U. •

Excellent communication and skills. recommend!

[Computer Security](#) • [CMS](#) • [Article Writing](#) • [Content Writing](#) • +1 more

Hakob G. @hakobgrig •  Yerevan, Armenia •

Project 35126682

He is well educated about the topic and that is shown through his work. Only issue I had was the difficulty to reach out to him when I had questions or concerns I wanted to address but it is not his fault we have different time zones. Would recommend him to anyone who needs someone for a cybersecurity project. Completed the project with great quality

Tien L. @notyves •  Lynn, United States

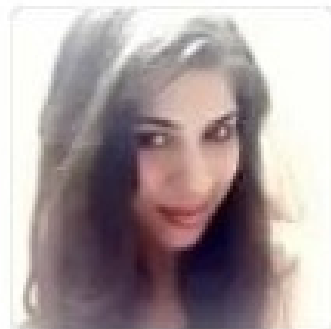

Small Software vulnerability assessment

Great job, he is expert and he delivers the knowledge comprehensively.

Tanvi P. @putansfree •  Delhi, India

Perks so good you'll never need to go anywhere else for your design. Seriously.

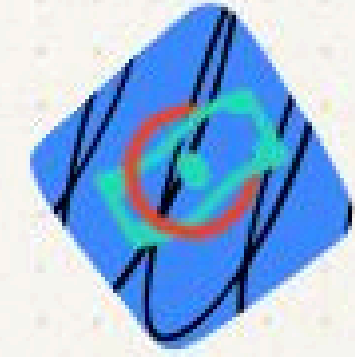

### Design board

Easily manage your design queue with a Trello board.

### Lightning fast delivery

Get your design one at a time in just a few days on average.

### Fixed monthly rate

No surprises here! Pay the same fixed price each month.

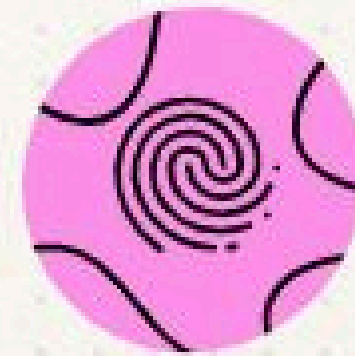

### Top-notch quality

Insane design quality at your fingertips whenever you need it.

### Flexible and scalable

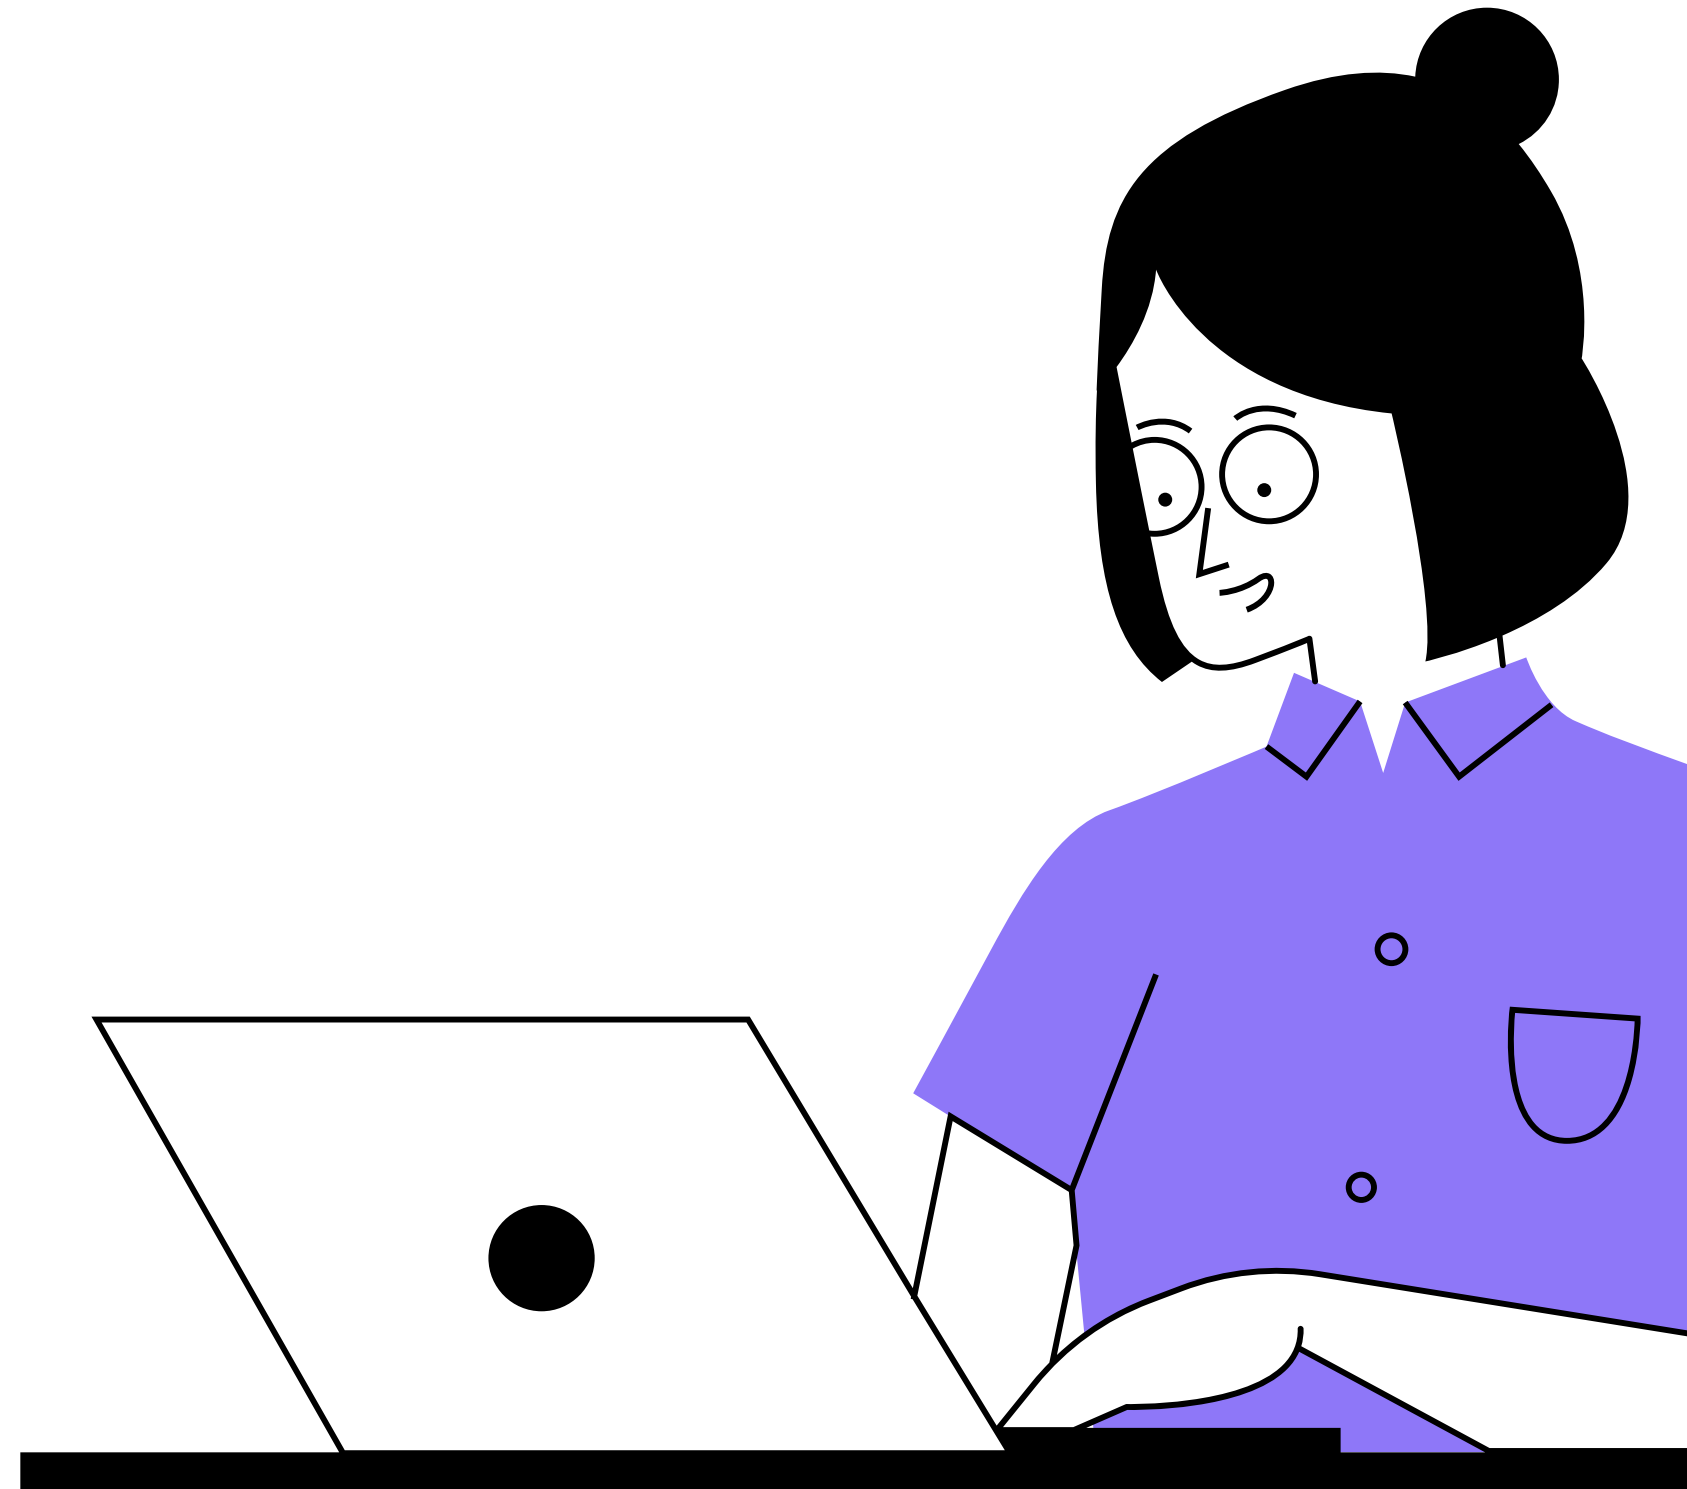

Scale up or down as needed, and pause or cancel at anytime.

### Unique and all yours

Each of your designs is made especially for you and is 100% yours.

# Membership Plans

# Basic Plan

## (\$1,500/month)

- One active request at a time.
- Services: basic security audits, phishing simulations, and cybersecurity training.
- One Website Build

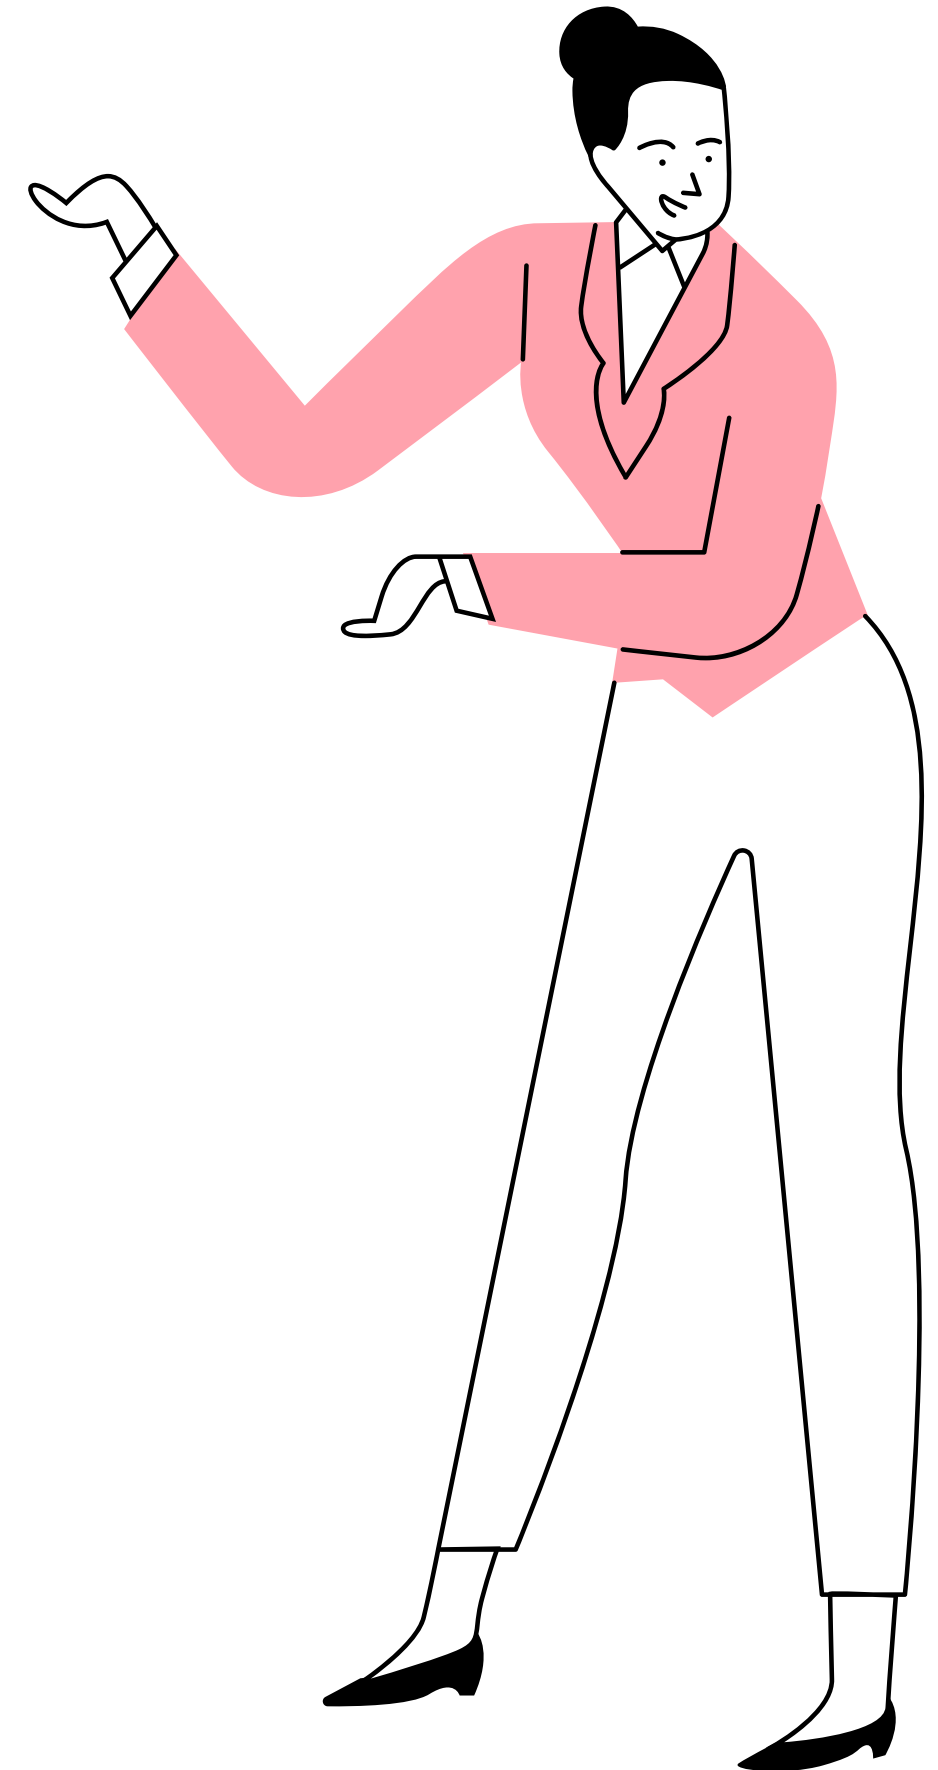

# Pro Plan (\$3,000/month)

- Two concurrent requests.
- Services: everything in the Basic Plan plus incident response, compliance reviews, and advanced vulnerability assessments.
- One Website Build/Upgrade
- 24/7 Cyber Security Protection from attacks for you/your business
- AI Solution

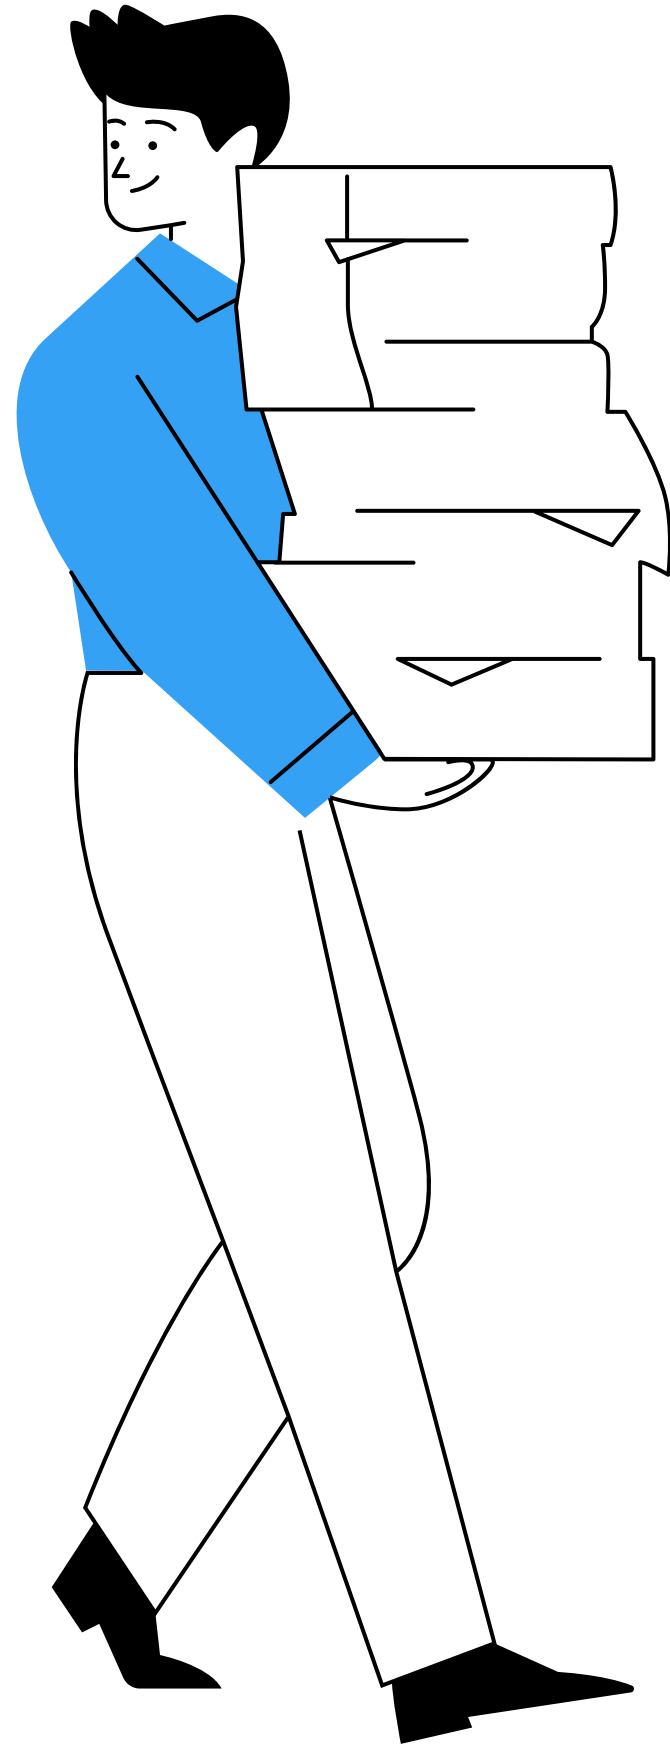

# Enterprise Plan (Custom Pricing)

- Tailored for large organizations.
- **Services:** everything in the Pro Plan plus 24/7 monitoring, custom security solutions, and dedicated account managers.
- **Bespoke Software**
- **Unlimited Iterations**
- **Social Media Management/Promotion**
- **Social Media Monetization**

# Commonly asked questions

**Why wouldn't I just hire a full-time Cyber Security Expert or Website Designer?**

**Good question! For starters, the annual cost of a full-time senior-level Cyber Security Expert/Software Developers now exceeds \$100,000, plus benefits (and good luck finding one available). Aside from that, you may not always have enough work to keep them busy at all times, so you're stuck paying for time you aren't able to utilize.**

**With the monthly plan, you can pause and resume your subscription as often as you need to ensure you're only paying your expert when you have work available for them.**

# Commonly asked questions

Is there a limit to how many requests I can have?

Once subscribed, you're able to add as many design requests to your queue as you'd like, and they will be delivered one by one. This generally depends on your plan.

# Commonly asked questions

How fast will I receive website?

On average, most requests are completed in just three days or less. However, more complex requests can take longer.

# Commonly asked questions

Who are the designers?

You might be surprised to hear this, but Cyber GuardiansX is actually a small digital agency. This means you'll work directly with me, founder of Cyber GuardiansX and 4 other members of my team. However, power-ups requests such as animations or custom illustrations are provided by partner designers.

# Commonly asked questions

When I pause my offer what happens to my Cyber Security Protection?

We understand you may not have enough web design work to fill up entire month. Perhaps you only have one or two design requests at the moment. That's where pausing your subscription comes in handy.

The process applies while this opens up a risk to you, as our system will no longer be able to protect your systems, infrastructure and business. We strongly recommended you discuss this with us via email prior.

# Commonly asked questions

If my devices are hacked can you track the attacker

Yes. This is done legally and in line with best practices. We work with interpol and local security agencies for suspect apprehension and prosecution.

# Commonly asked questions

How long do you protect devices

Once your subscription is made our robust systems and a dedicated team works round the clock to make sure all your network and devices are protected. This includes your social media handles. We alert you immediately of any impending attacks.

Generally we help with your day to day cyber security needs.

# Commonly asked questions

What happens after I register

Once you have got your membership plan, you are onboarded into our systems. You can reach us at any time of the day and we will assign a team to immediately assist you.

# Commonly asked questions

How do you handle larger requests?

Larger requests are broken down on CyberguardiansX's end. This applies to full-scale website or mobile app designs, UI/UX work, etc. You should expect to receive a reasonable amount of work every 24-48 hours until the entire request is done.

# Commonly asked questions

What if I don't like the design?

No worries! We'll continue to revise the design until you're 100% satisfied.

# Commonly asked questions

Is there any design work you don't cover?

**Absolutely. Designjoy does not cover the following design work: 3D modeling, animated graphics (GIFS, etc.), document design (medical forms, etc.), complex packaging, and extensive print design (magazines, books, etc.).**

# Commonly asked questions

What if I only have a single request?

That's fine. You can pause your subscription when finished and return when you have additional design needs. There's no need to let the remainder of your subscription go to waste.

# Commonly asked questions

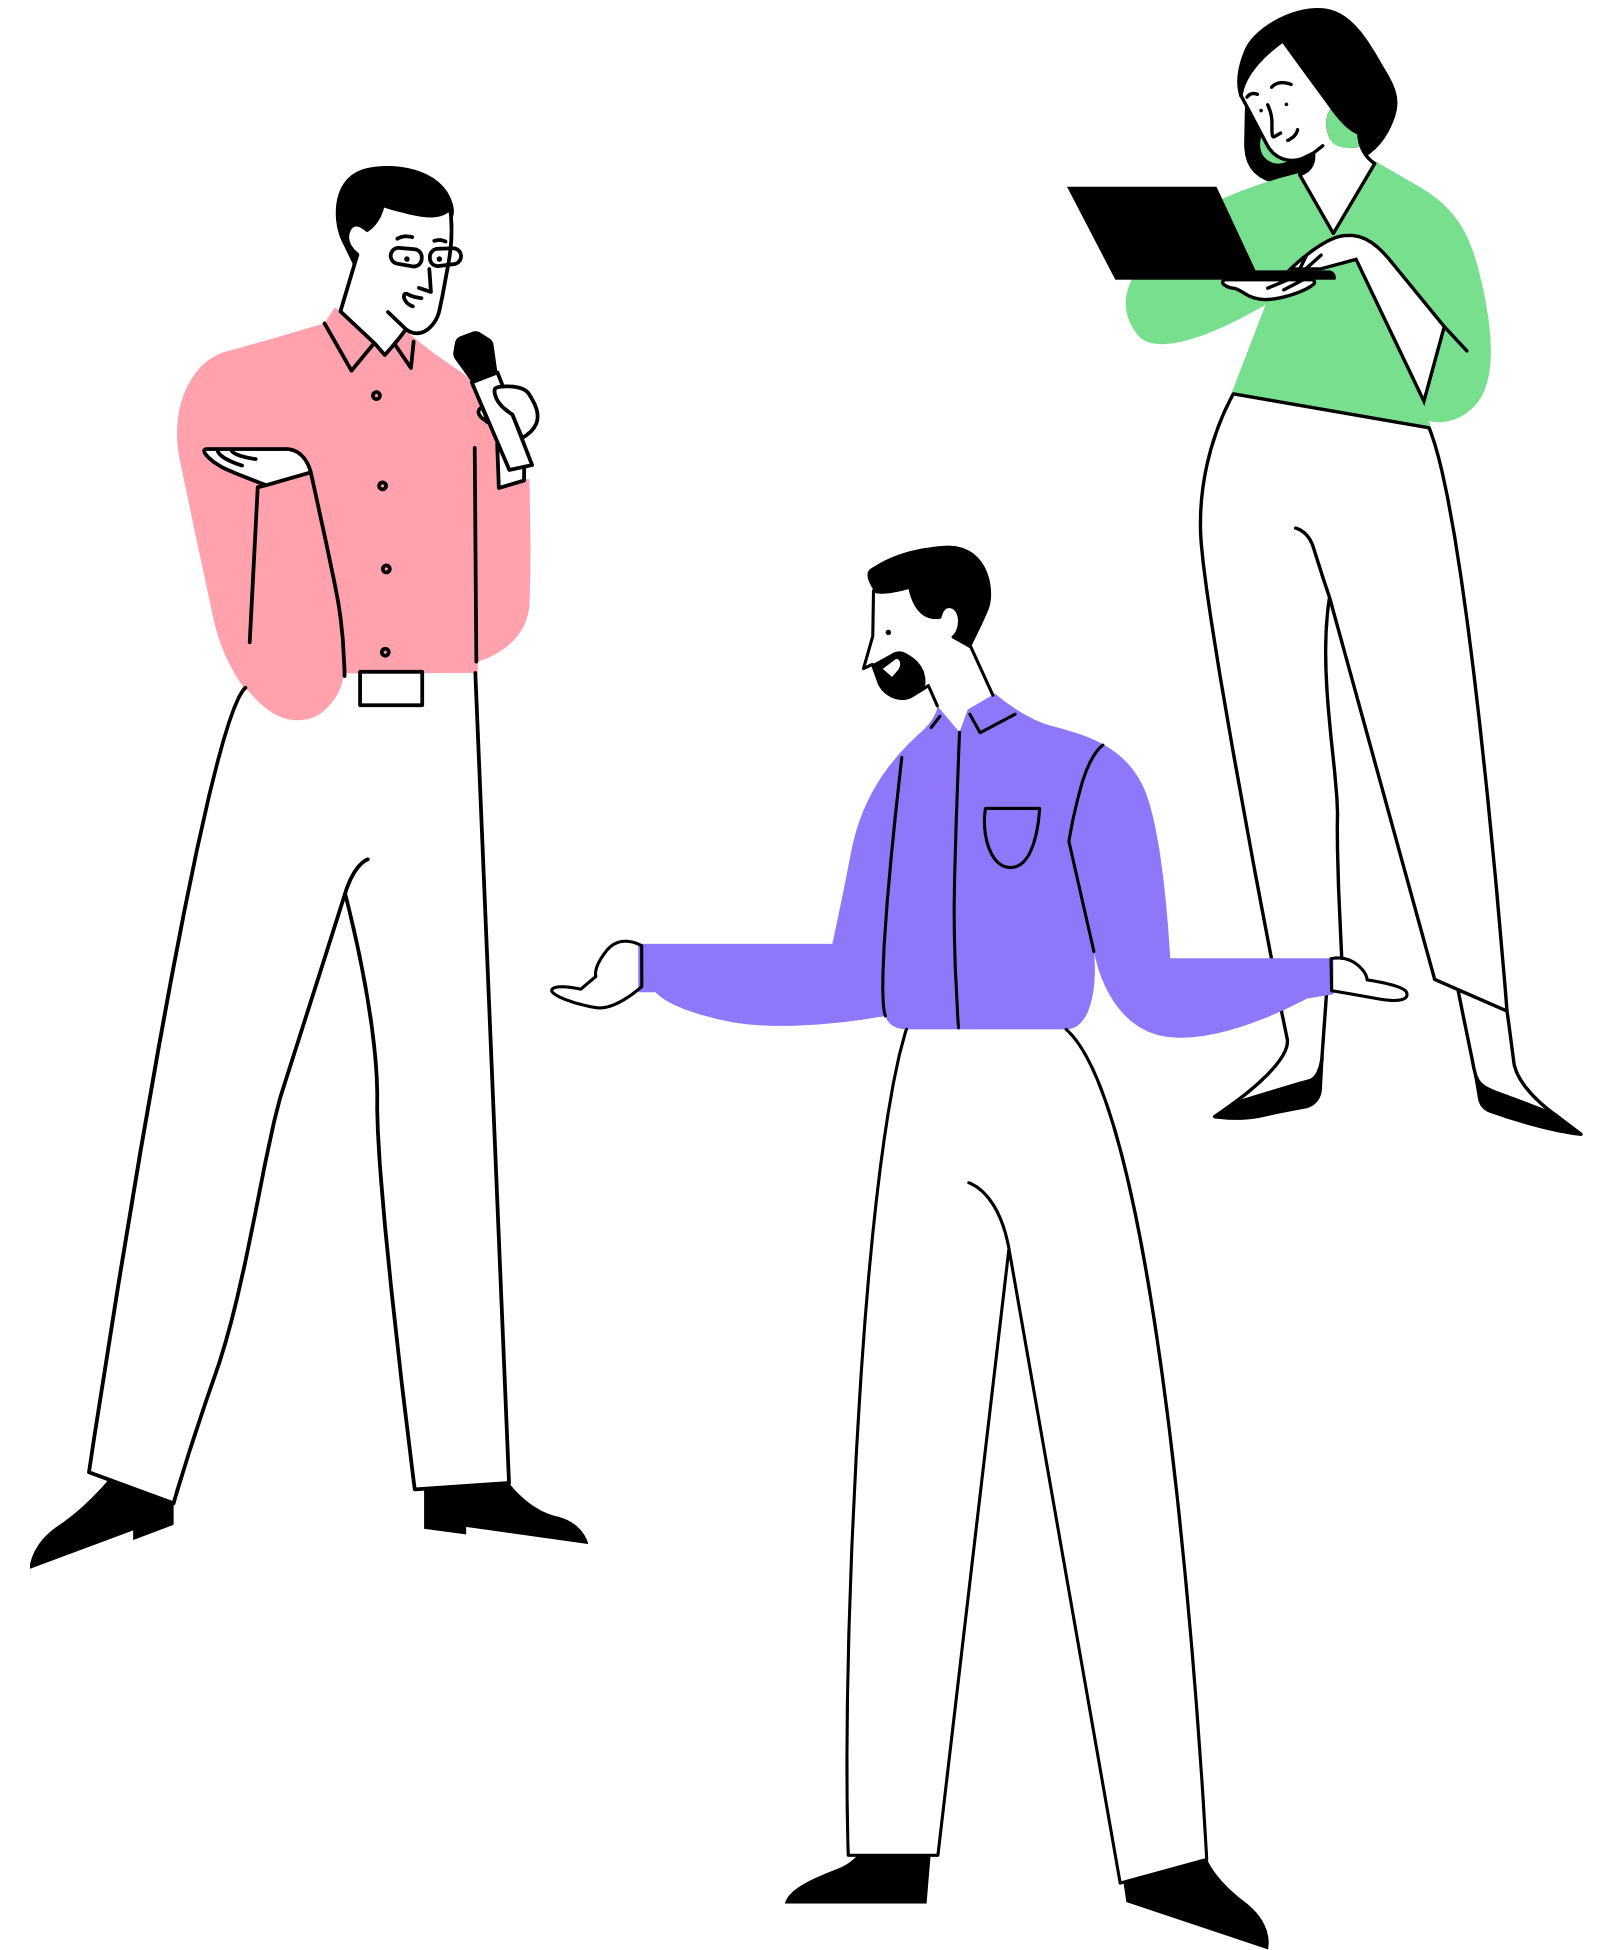

Are there any refunds if I don't like the service?

Due to the high quality nature of the work, there will be no refunds issued
